## GENERAL INFORMATION GENERAL ASSEMBLY 2024

### ATTENDANTS

The General Assembly is the sovereign authority of the federation.

Each member has to nominate 2 persons, who ensure the communication between his own organisation, its members and ARTSCENICO. It would be optimal if these two people are among the Delegates at the General Assembly. These 2 delegates are eligible to vote during the General Assembly.

Only full members have a right to vote at the General Assembly.

As there are several professional associations in some countries, the voting ratio is apportioned by country.

Each country has 2 (two) votes regardless of the number of member organisations in the country.

In the event that only one full member is representing a country it shall have two votes. In the event that more than two full members come from a country, they have to split the two votes among them.

Each member may send more than one person to the General Assembly, but the full-members have to designate the delegate(s) who will vote. Non-delegates may attend the meeting but can't vote on.

Each full member may mandate another full member to represent it at the General Assembly via a written proxy.

### ACCOMODATION

Every attendant books their travel and quarter at their own expense. ARTSCENICO does not pay for the accommodation of the attendants, you have to clarify any refunds for your expenses with the professional organization of which you are a delegate or member.

### TRAVEL TO LONDON

It will make a lot of sense for those who are flying to travel to **London City Airport** and not Heathrow.

There are various ways of getting in from there to the hotel using the London tube or Overground rail system – all take 30-35 mins.

Alternative is to take the Paddington express from Heathrow – non-stop 20 min service- and then tube from there.
